

# CORPORATE FACT SHEET

## Profile

Confirm Biosciences is a women owned business located in San Diego, CA. Confirm Biosciences is a worldwide provider of on-site drugs of abuse testing products marketed under the trade names SalivaConfirm®, DrugConfirm™, Hairconfirm™ and for private label. During our 5 year history, we have developed a global distribution network with a strong presence in North America, Europe and Australia.

## Experience

Confirm Biosciences has sold millions of drug tests and screening services to all sizes of companies in all type of industries around the world. Our ability to satisfy Fortune 500 clients and large government contracts just as well as the small local business owner has helped us earn our reputation for great products and service

## Our Values

Confirm Biosciences prides itself on being highly in touch with the needs and demands of the drug testing community. The company operates with four key values in mind:

- **Innovation:** Confirm Biosciences Products seeks to pioneer groundbreaking solutions through various in R&D programs, production processes, and patent-pending solutions.
- **Quality:** Confirm Biosciences employs a thorough quality management system and superior customer service policy to ensure that clients are always satisfied with the products they depend on.
- **Affordability:** We believe that businesses should never feel forced to choose between quality and affordability. This is why the company aims to leverage all market resources available to provide our customers with cost-effective and affordable products and solutions.

- **Commitment:** Confirm Biosciences has been providing unparalleled service and support to our customers by combining technical expertise, quality material and sound business strategies. We have been growing steadily to become a major supplier of rapid in-vitro diagnostic devices worldwide. Our objective is to be one of the leaders in this segment.

## Our Staff

Our team of staff is well-trained, experienced, and committed to excellence. These health professionals, information specialists, account managers, and logistics managers clearly understand the importance of testing and screening services to every business they serve. These are problem-solvers, dedicated to customer satisfaction.
