3. Hazard Identification

Emergency Overview

Sodium azide may react with lead or copper piping to form very explosive metal azides.

Additional Toxicity information is Section 11.

Potential Health Effects (Acute and Chronic)

Inhalation: May be irritating to mucous membranes and respiratory tract. May be harmful if inhaled.

Ingestion: May be harmful if swallowed.

Skin Contact: May be irritating to skin.

Eye Contact: May cause irritation to eyes.

Symptoms of Exposure: May cause a fall in blood pressure.

Aggravated Medical Conditions by Exposure: No information found.

Carcinogenicity: No information found.

4. First Aid Measures

Emergency First Aid

GET MEDICAL ASSISTANCE FOR ALL CASES OF OVEREXPOSURE.

Inhalation NA

Ingestion Wash out mouth with water provided person is conscious; get immediate medical attention.

Skin Immediately flush thoroughly with large amounts of water. Remove contaminated clothing and wash before reuse. Seek medical attention.

Eyes Immediately flush thoroughly with water for at least 15 minutes. Seek medical attention.

5. Fire Fighting Measures

Extinguishing Media Use water spray, foam, dry chemical, or CO₂.

Fire Fighting Procedures Wear self-contained breathing apparatus and protective clothing.

Fire & Explosion Hazards Azide reacts with many heavy metals such as lead, copper, mercury to form explosive compounds. Copper and lead azides are more sensitive than nitroglycerine.

Emits toxic fumes under fire conditions.

6. Accidental Release Measures

Spill Response

Evacuate the area of all unnecessary personnel. Wear suitable protective equipment listed under Exposure / Personal Protection. Contain the release and eliminate its source, if this can be done without risk. Spill material should be disposed of accordingly (see Section 12). Comply with all Federal, State, and local regulations on reporting releases. Refer to Regulatory Information for reportable quantity and other regulatory data.

7. Handling and Storage

Handling

Avoid inhalation and contact with skin, eyes, and clothing. Avoid prolonged and repeated exposure. Retained residue may make empty containers hazardous; use caution!

Storage

Keep pouch tightly closed and protected against physical damage. Store at room temperature.

8. Exposure Controls and Personal Protection

Safety Equipment

NA

Personal Protective Equipment

Gloves should be worn when handling strip.

Work and Hygiene Practices

Wash thoroughly after handling. Wash contaminated clothing before reuse.

Exposure Guidelines
